

## Drinking and Driving

A Threat to Everyone

**112M**

Adults reported drinking and driving about 112 million times in 2010.

**85%**

85% of drinking and driving episodes were reported by binge drinkers.

**4 in 5**

Four in 5 people who drink and drive are men.

US adults drank too much and got behind the wheel about 112 million times in 2010. Though episodes of driving after drinking too much (“drinking and driving”) have gone down by 30% during the past 5 years, it remains a serious problem in the US. Alcohol-impaired drivers\* are involved in about 1 in 3 crash deaths, resulting in nearly 11,000 deaths in 2009.

Driving drunk is never OK. Choose not to drink and drive and help others do the same.

\*These drivers had blood alcohol concentrations of at least 0.08%. This is the illegal blood alcohol concentration level for adult drivers in the United States.

Learn what you can do to prevent alcohol-impaired driving.
